

Organic vegetable day in Seeland

Egli's fresh herbs AG was there

We were present at this diverse and successful day and were allowed to present our company Egli's frische Küchenkräuter AG. On a screen one could enjoy a compiled slide show and get to know the company.

In case of questions our competent employees were on the spot. It was an exciting and active experience. We always welcome such projects and engagements. Our company is certified according to the standards of Bio-Suisse, IFS, ISO 9001:2015 and SwissGAP. Every day we do our best to deliver only the best quality to our customers.

We thank you for this experience and hope for many more events.

Our department heads were on site and looked after the visitors in questions of herbs. In addition, a herb quiz could be made. Simply sniff and guess which kitchen herbs it is.

If you guessed correctly, you were rewarded with a small gift.
